10 YEAR GUARANTEE

Terms and conditions of warranty - Maintenance log

In order to qualify for the 10 year warranty, these instructions must be observed strictly.

INDEX

- 1. 10 Year warranty for maximum reliability and security 06**
- 1.1 Inspection protocols for lifting clamps 06**
- 1.1.1 Safety inspection procedure 06**
- 1.1.2 Preventive maintenance procedure 07**
- 1.1.3 Repair procedure 07**
- 1.2 Damage: How to act 08**
- 2. Terms and conditions of warranty 08**

© The Crosby Group LLC. Nothing from this original terms and conditions of warranty publication may, in any way whatever, be replicated or published without prior written permission from The Crosby Group LLC.

1. 10 Year guarantee & warranty for maximum reliability and security

Inter Product BV (hereinafter: "CrosbyIP") provides a 10 year warranty for its clamps. In order to benefit from this the following procedures and measures (as stipulated in article g of the terms and conditions of warranty) must be observed:

- You must instruct and train your staff in the proper use of the clamp, as stated in the user manual. Observe these instructions to the letter!
- You must carry out the periodic inspections protocols according to the provisions of the user manual.
- You must have the preventive maintenance and repair of your lifting clamp carried out by a CrosbyIP accredited repairer.

CrosbyIP believes in the quality of its product for 100% and wants to support you in word and deed with a view to guaranteeing maximum reliability. You as user however remain the first and most important link.

1.1 Inspection protocols for lifting clamps

Decisive for the frequency with which the activities should be carried out is the number of operating hours per week of the lifting clamp, according to the interval table on pages 73-74.

Prior to every application of the clamp it is important the clamp operator inspects the clamp for proper functioning.

1.1.1 Safety inspection procedure

What does a safety inspection entail?

- The lifting clamp will be meticulously inspected for proper functioning.
Category "A": six-monthly (0 – 18 operating hours per week).
Category "B": six-monthly (>18 operating hours per week).
- A safety officer authorised by the company should carry out and document in the maintenance log this inspection according specified procedures.
- Record in the maintenance log, safety inspection table on page 69 when the inspection service was carried out, by whom: name and signature of person authorised by the company and whether or not any defects were detected.
- If taken out of service then the dates of removal from and return to operation should be noted.

See booklet User Manual chapter 1.2; "Inspection protocols" for these specific inspection criteria.

1.1.2 Preventive maintenance procedure

What does a preventive maintenance service entail?

- The lifting clamp and the parts will be meticulously inspected for cracks, deformation, damage and proper functioning.
Category "A": annually (0 – 18 operating hours per week).
Category "B": six-monthly (>18 operating hours per week).
- A repairer authorised by CrosbyIP must carry out this preventive maintenance service.
- During every maintenance service critical parts are inspected and, where applicable, any rejected parts will be replaced.
- Record in the maintenance & repair table on page 71, in column **M** when the maintenance service was carried out.

See booklet User Manual chapter 1.4; "Preventive maintenance procedure" for these specific parts.

1.1.3 Repair procedure

What does a repair service entail?

- The lifting clamp and the parts will be meticulously inspected to determine the condition of the body and all parts.
Category "A": after 5 years (0 – 18 operating hours per week).
Category "B": once per 3,5 years (>18 operating hours per week).
- A repairer authorised by CrosbyIP must carry out this repair service.
- During every repair service critical parts and, where necessary, any rejected parts will be replaced.
- Record in the maintenance & repair table on page 71, in column **R** when the repair service was carried out.

See booklet User Manual chapter 1.4; "Repair procedure" for these specific parts.

1.2 Damage: How to act

On the inside of the front cover some illustrations have been included of damaged (rejected) pivots and camsegments with explanations. In most cases however the areas of damage are much less extensive. In doubtful cases an authorised repairer should assess the clamp.

In chapter 1.2 of the booklet User Manual the most common areas of damage are discussed.

When during one of the inspections a form of wear or damage is detected the following procedures must be carried out:

1. Remove the clamp from service (note date of removal from service in the table of the maintenance log).
2. Try to ascertain the cause of the defect, for example:
 - Excess stress (incidental/structural)
 - Improper use (clamp is unsuitable)
 - Injudicious use (personnel is untrained)
 - Lifting of new/divergent materials (hardness/dimensions)
 - Rough and/or careless use

While these areas of damage are not covered by the warranty, it is from the standpoint of reliability important to follow this procedure.

NB: in cases of doubt contact your authorised CrosbyIP repairer.

3. Give the clamp with the maintenance log to the CrosbyIP authorised repairer. He will check the clamp thoroughly and replace the necessary parts. The repair will be carried out and registered in the maintenance log.
4. After repair return the clamp to operation (note date of return to operation in the log).
5. Increase frequency of safety inspections (for 2 months):
 - Category "A": 1 x per month
 - Category "B": 1 x per 2 weeks
6. If additional wear appears, contact your CrosbyIP Customer Service Centre.

When you also believe that your CrosbyIP lifting clamp has been overstressed, carry out the procedures above to avoid further risks.

Attention: excess stress cannot always be seen from the clamp. Should the clamp due to for example excess stress no longer function properly and/or seize, it should be removed immediately from service for careful inspection.

2. Terms and conditions of warranty

- a. CrosbyIP warrants for a period of ten years from putting into operational service of a CrosbyIP lifting clamp the integrity of the product supplied provided the provisions set by these terms and conditions are met.

- b. Should the lifting clamp supplied prove unreliable, which judgement should be set against the purpose for which it is intended in the light of the user instructions, then Crosby may at its own discretion:
 - Repair the lifting clamp free of charge,
 - Replace the lifting clamp,
 - Credit you for a proportionate part of the invoice, related to the purchase price of the lifting clamp after deduction for depreciation.
- c. The warranty shall come into operation as soon as CrosbyIP has received from you a signed copy of the warranty certificate.
- d. You must under all circumstances provide CrosbyIP with the opportunity to repair any defects relating to the lifting clamps.
- e. You may appeal under the warranty after all payment obligations with respect to the lifting clamp have been fulfilled.
- f. Warranty shall not be extended for defects resulting from:
 - Normal wear and tear
 - Damage
 - Overload
 - Improper use
 - Injudicious use
 - The lifting of new/divergent materials (hardness/dimensions)
 - Rough and/or careless use
 - Failure to carry out or improper conduct of the procedures and measures stipulated under g

Nor shall warranty be extended, when:

- Between the date of delivery of the lifting clamp (= invoice date of the CrosbyIP dealer) and the date of commissioning of the lifting clamp there is a time interval of more than three months
 - Lifting clamp parts are used that do not originate with CrosbyIP
 - Alterations are made to a CrosbyIP lifting clamp
 - The repairs are carried out by a repairer not authorised by Crosby
- g. You must observe the procedures and measures designed by CrosbyIP to achieve the quality and maximum reliability of the lifting clamp. These are further specified in chapter 1: "10 year warranty for maximum reliability and security", both of which are inseparably linked to the terms and conditions of warranty and form an integral part thereof.

10-year warranty applies solely for the user/final customer of a CrosbyIP lifting clamp. Effective September 2003.

No warranty applies to CrosbyIP products in the United States of America.

- ES** Al rellenar, firmar y remitir esta prueba de garantía, el abajo firmante declara conocer las condiciones de garantía, el anexo correspondiente "garantía de 10 años para una seguridad óptima" y las instrucciones de uso y el libro de mantenimiento que se entregan con la garra de elevación. El abajo firmante declara estar de acuerdo con estas condiciones y que las cumplirá estrictamente teniendo en cuenta las instrucciones de uso y las medidas relativas al mantenimiento. El abajo firmante sabe y está de acuerdo con que los datos mencionados se guarden en un registro de datos de CrosbyIP, que sólo se utilizará para la gestión propia de CrosbyIP en relación con los servicios y productos que ofrece.

IT Completando, firmando e inviando questo certificato di garanzia, il sottoscritto dichiara che egli/ella ha preso conoscenza dei termini e condizioni della garanzia, dell'appendice allegata "10 anni di garanzia per un'affidabilità ottimale", e del libretto istruzioni d'uso e manutenzione fornito con la pinza di sollevamento.

Il sottoscritto dichiara che egli/ella conviene con i suddetti termini e condizioni e che egli/ella adempirà totalmente a questi termini e condizioni, laddove si terrà conto delle istruzioni d'uso e delle misure di manutenzione richieste.

Il sottoscritto è consapevole e conviene con il salvataggio delle informazioni sopraindicate in una banca dati CrosbyIP che verrà usata solo per le operazioni CrosbyIP in relazione ai prodotti e ai servizi forniti dall'azienda.

PT Ao preencher, assinar e devolver este certificado de garantia, o abaixo assinado declara que tomou conhecimento dos termos e condições da garantia, do anexo "Garantia de 10 anos para ótima fiabilidade" fornecido, das instruções de utilização e do folheto de manutenção fornecidos com o grampo de elevação.

O abaixo assinado declara que concorda com estes termos e condições e que os cumprirá completamente, de acordo com os quais serão tomadas em devida conta as instruções de utilização e as medidas de manutenção necessárias.

O abaixo assinado tem conhecimento e concorda com o armazenamento das informações acima numa base de dados da CrosbyIP que serão utilizadas apenas para operações da CrosbyIP em conjunto com os produtos e os serviços fornecidos pela empresa.

Maintenance Table

.....
All inspections and repairs must be recorded in the maintenance table. This applies not only for your own inspections but also for the inspections carried out by the CrosbyIP authorised repair engineer. When the clamp is offered for inspection/maintenance to the repair engineer you should always supply the appropriate maintenance log with it. For a list of certified repair centres go to: www.crosbyip.com

Onderhoudstabel

.....
In de onderhoudstabel moeten alle inspecties en reparaties worden bijgehouden. Dit geldt voor uw eigen inspecties, maar ook voor de inspecties van de door CrosbyIP geautoriseerde reparateur. Als de klem voor een inspectie/onderhoud wordt aangeboden aan de reparateur dient u altijd het bijbehorende onderhoudsboekje mee te leveren. Ga voor een overzicht van de gecertificeerde reparatiecentra naar: www.crosbyip.com

Wartungstabelle

.....
In die Wartungstabelle sind alle Inspektionen und Reparaturen einzutragen. Das gilt für Ihre eigenen Inspektionen sowie für die Inspektionen der CrosbyIP-autorisierten Reparaturfachmänner. Wenn dem Mechaniker die Klemme für eine Inspektion/Wartung vorgeführt wird, müssen Sie immer das dazugehörige Wartungsbuch mitliefern. Eine Liste der zertifizierten Reparaturstellen ist zu finden unter: www.crosbyip.com

Tableau d'entretien

.....
Le tableau d'entretien doit reprendre toutes les inspections et toutes les réparations. Cela s'applique à vos propres inspections mais également aux inspections des réparateurs agréés par CrosbyIP. Si une inspection/maintenance est proposée au réparateur, vous devez toujours fournir le carnet d'entretien correspondant. Pour un aperçu des centres de réparation agréés, rendez-vous sur: www.crosbyip.com

Tabla de mantenimiento

.....
En la tabla de mantenimiento se registrarán todas las inspecciones y reparaciones. Esto incluye sus propias inspecciones, y también las efectuadas por el reparador autorizado por CrosbyIP. Cuando se facilite la garra al reparador para una inspección/

www.crosbyip.com

Nella tabella di manutenzione vanno riportate tutte le ispezioni periodiche e gli interventi di riparazione effettuati. Questo vale sia per le ispezioni interne ad opera del personale aziendale, sia per le ispezioni effettuate dai tecnici autorizzati della Crosby/JP. Quando si consegna al tecnico un gancio per una ispezione o per un intervento di manutenzione, fornire sempre anche il libretto di manutenzione accluso.

Tabela de manutenção

Na tabela de manutenção devem ser registradas todas as inspeções e reparações. Isto se aplica tanto as suas próprias inspeções como as do reparador CrosbyIP autorizado. Quando a mandíbula for oferecida ao reparador para inspeção/manutenção, deve sempre ser entregue junto o livro de manutenção correspondente. Para uma lista de reparadores reconhecidos, consulte www.crosbyip.com

WARNING

- Loads may disengage from clamp if proper procedures are not followed.
- A falling load may cause serious injury or death.
- The clamp shall not be loaded in excess of its rated load or handle any load for which it is not designed. Read instructions in user manual to determine minimum load permitted and proper load thickness.
- Never operate a damaged or malfunctioning clamp, or a clamp with missing parts.
- Clamp not to be used for personnel hoisting.
- Prohibition of handling above persons.
- Do not leave suspended loads unattended.
- Operator and other personnel shall stay clear of the load.
- Do not lift loads higher than necessary.
- Do not make alterations or modifications to clamp.
- Do not remove or obscure warning labels.
- See ANSI/ASME B30.20 BELOW-THE-HOOK LIFTING DEVICES for additional information.
- Read, understand, and follow these instructions and the product safety information in user manual before using clamp.
